# SUP-Rack

Lowerable SUP Board Roof Rack  
– fits both sides of the vehicle

The lowerable SUP Rack is a revolutionary, convenient, super-quick and safe way to carry SUP boards on vehicles with a high roof.

The SUP Rack accommodates one paddleboard from 14 inches to 28 inches. An extension bracket is available as an optional add-on item for transporting a second board. In total up to 4 boards can be transported with one SUP Rack incl. extension add-on, on each side of the vehicle roof.

The low weight aluminium construction is durable and corrosion resistant. Rubber cushioned horizontal and vertical supports retain your board soft but also firm and secure, so there is no movement while driving.

# SUP-Rack

Lowerable SUP Board Roof Rack  
– fits both sides of the vehicle

Have you ever had difficulty loading your SUP Board on the roof rack of your Van, SUV or any other high roof vehicle?  
The SUP Rack roof rack system meets this challenge by allowing you to load your paddleboard at shoulder height.

Gas springs reduce the weight of the board by up to 18 kg when lifting and lowering the SUP Rack. If the SUP Rack is not in use, it can be disassembled easily by removing only one locking bolt, leaving only the mounting plate of the cross bars.

Lowerable SUP Board Roof Rack  
– fits both sides of the vehicle

***The SUP Rack requires preinstalled crossbars to be mounted on the vehicle.***

***All types and brands of crossbars are compatible, as well as the AluBar™ crossbars by Prime Design™ you can find in our online-shop.***

Your Ullstein Concepts Team

The screenshot shows the Ullstein Concepts website interface. At the top, there is a navigation bar with links for HOME, CATALOGUES, SPARE PARTS, TJM OFF-ROAD EQUIPMENT, SPECIAL SOLUTIONS PICKUPS, ABOUT US, SHOPPING CART, and LOGIN. A search bar is also present. Below the navigation is a large banner image of a red pickup truck equipped with a SUP rack and various accessories. Below the banner are four main product categories: PICKUP ACCESSORIES, COMMERCIAL VEHICLE ACCESSORIES, OFFROAD ACCESSORIES, and SPECIAL SOLUTIONS. Each category has a sub-section with a title and a brief description. The 'Covers' section describes the Mountain Top covers. The 'Hardtops' section describes the open loading truck bed. The 'Sliding Trays WORKS' section describes the retractable truck bed slides. A list of vehicle brands is provided on the left side of the page.

**Covers**  
protection of your cargo and truck bed  
The name Mountain Top (formerly known as Bjerg Cab) has represented, like no other brand, first class tonneau covers made from aluminum for decades. Because of the quality and a continuous development, the products of Mountain Top are well ...

**Hardtops**  
more loading space and transport safety  
A pick-up with an open loading truck bed has a very limited usability in our regions. Rain, snow and ice often make the loading space unusable. Only a **hardtop**, or literally a hard roof, completes the pickup and delivers a usable closed cargo ...

**Sliding Trays WORKS**  
loading comfort and -flexibility on the highest level  
With the new **WORKS sliding trays**, Ullstein Concepts came up with a new generation of retractable truck bed slides. The focus during the development was the usability for the customer. Consequently, the improved usage of the given cargo space ...
